Message

I urge you NOT to approve the Atlantic Coast Pipeline. In fact, I am shocked to find you are about to do so. I have always thought you a courageous and forward thinking person--from when I first knew of you as State Treasurer. But this is NOT a forward thinking act you are leaning toward. Fracked natural gas is a potent greenhouse gas and will simply ensure North Carolina's climate denial. It even does more, it actively promotes climate change. Since I am old enough to be your mother, I have no hesitation to say, on behalf of North Carolina as well as our vulnerable planet, shame on you for considering such a reckless move.
